Respiratory Telehealth to Empower Staff

IMAGINE a night shift...

... where a patient is having respiratory distress. **Is your staff prepared?** Will you have to **transfer** the patient out?

Now imagine 203 years of respiratory care experience at the bedside with your nurse, **at the touch** of a button.

*Which situation would you put **your** staff in?*

- 24/7/365
- Nurse Friendly
- Coverage < \$5 /hr
